-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The drawings were received on 4/6/06. These drawings are accepted.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 21-23 are rejected under 35 U.S.C. 102(e) as being anticipated by White ;047, of record.

Note 34a-d and 38.

3. Claims 30,31 and 37-39 are rejected under 35 U.S.C. 103(a) as being unpatentable over the reference as applied to claim 21 above, and further in view of Krishnakumar et al '834, of record.

To have formed the squeeze wall structure in a container without reinforcing grooves would have been obvious in view of such teaching by Krishnakumar et al. To have formed the sidewall thickness of 0.015" would also have been obvious in view of Krishnakumar et al.

4. Claims 1-20 are allowed.
5. Claims 24-29 and 32-36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 40-42 remain withdrawn as directed to a non elected invention.

Art Unit: 3727

6. Applicant's arguments, see pages 12-17 of the amendment, filed 4/7/06, with respect to objection to the drawings and rejections of claims 1-39 have been fully considered and are persuasive. The objections and rejections of the drawings and claims have been withdrawn.

Applicant's arguments with respect to claims 21-23, 30, 31 and 37-39 have been considered but are moot in view of the new ground(s) of rejection.

7. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
